Transfers between Mactan-Cebu airport/hotel and the Philippine Siren on the day of embarkation and disembarkation are included in your cruise price. Please note that the Philippines Office for Transportation Security includes 'scuba equipment' on a list of blunt instruments that are not to be carried in hand luggage on flights originating in the Philippines. We advise that all Siren guests carry all dive related equipment in their check in rather than their carry-on luggage as we have had guests prohibited from carrying their regulators in their hand luggage. If you are unsure we would advise that you contact your airline for clarification.

Advice on International Flights

Please book your international flight to fly into and out of Cebu. We recommend you to arrive in Cebu 1 day before cruise departure so you are well rested before the start of the cruise. Otherwise, please book your international flight to arrive into Cebu by 12:00pm on the day of cruise departure and we will bring you to the Be Resorts by 13:00pm, where your cruise will commence. The Mactan International Airport is a short 20-minute taxi ride from the Be Resorts in Cebu. Disembarkation at the end of the cruise will be just before 10.00am. Please allow plenty of time for transfer and check-in.

Optional Cebu Extension

To extend your luxury feeling and pamper you a little extra, we can offer you the following package:

After spending a night in a hotel Manila upon the arrival of your international flight, you can board your domestic flight to Cebu. We arrange for your transfer to the hotel. After the cruise, board your return flight and spend a final relaxing evening within the Philippines in Manila. When your international flight arrives directly at Cebu, we organise a hotel for you there.

The local time in the Philippines is +8 hours UMC (GMT).

Money Matters

The local currency is the Philippine Peso (PHP). The vast majority of all hotels, resorts, shops and restaurants will accept a wide range of credit and debit cards. Please note that in some cases, away from the major cities, you may be charged a service charge for credit card handling. This can range from 3.5 - 6.0%. There are many ATMs in the Philippines; in most cities and airports. There is no ATM at the Busuanga Airport (Coron) and guests should ensure they have small denominations of Philippine Peso for departure tax and any excess baggage charges prior to departing Manila. There are also money changers at airports and in the cities.

Airport Fees

Passengers travelling within the Philippines are required to pay airport terminal fees. Please ensure that you retain a sufficient amount of PHP to pay these fees upon departure: it can be paid in cash only.

- Domestic departure: 200PHP
- International departure: 750PHP

Health

Health standards vary throughout the country depending on location. In some cases they do not meet Western standards but in some cases they exceed them. Manila and Cebu have international class hospitals whilst the hospitals in other parts of the country will ensure that you receive more than adequate care. All major towns have hospitals and doctors available.

However, it is advisable to obtain Travel Insurance in addition to Health Insurance before you travel. We advise all guests to ensure that vaccinations are up to date. Please make sure you use insect repellent and cover exposed skin to prevent any insect borne diseases. We recommend that travelers take normal precautions with food in order to prevent stomach upsets, and be sure to drink either boiled or bottled water only. Please consult your doctor or nearest health authorities for up-to-date medical travel information well before departure.

Language and Religion

There are over 170 different languages and dialects spoken in the Philippines, however, Tagalog (a.k.a. Filipino) is the most widely spoken language in the archipelago. Nearly all Filipinos who work in the tourism industry speak good English and English road and street signs are found nationwide. Almost 90% of the population is Christian. The largest religious minority is Muslim, and they make up about 5% of the population.

Climate and Weather

The Philippines is a tropical country and the weather is fairly even all year round. The year is roughly divided into two seasons; 'rainy' and 'dry'. The rainy season generally begins in early June and can extend through to November. In general, the months with greatest rainfall tend to be July and August. The rainy season often brings days of uninterrupted sunshine punctuated by occasional thunderstorms and rain. The dry season runs from November through to May but there is always the chance of light rainfall during this period. The warmest months are usually March through to May and the highest humidity is in June, July and August. Year round coastal and inland temperatures range from 27°C – 28°C (81°F - 82°F) up to 33°C – 34°C (91°F - 93°F) with an average of approximately 31°C (87°F). Evenings are marginally cooler.

Water Temperature and Exposure Suits

Water temperatures are broadly similar throughout the entire Philippines region with averages of approximately 26 °C – 28 °C (78 °F- 82 °F); the coolest period is January – March with an average temperature of approximately 24 C – 26 C (75 °F- 78 °F). Most guests find that a 3mm or 5mm wetsuit and possibly a rash vest are suitable for the water temperature. However, for guests who feel the cold easily, especially with repeated diving, then we recommend to bring an extra vest / hood or full wetsuit. In short, bring what you feel most comfortable in.

Diving Emergencies

There are numerous recompression facilities throughout the Philippines, the most accessible are located in Manila, Cebu, Batangas and Subic. Private emergency air evacuation may be needed to access these facilities in the unlikely event of an accident. We strongly urge that all guests dive well within their dive limits and follow the advice of our dive guides when making repetitive dives throughout a liveaboard trip and, above all, buy dive specific insurance before their trip.
